

## Coopers Hilltop Farm

### Our Farm Today

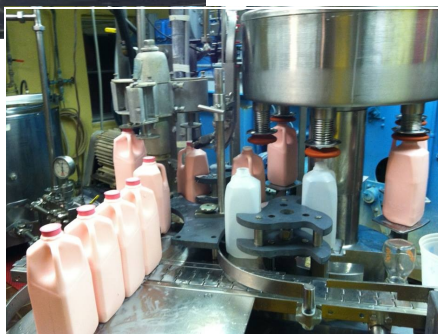

Our hilltop continues to be a fine example of beautiful agricultural land. People drive farther today so the community which we serve is larger than the mill village of Rochdale. Our customers are the reason that we grow crops, care for animals and environment and process and retail food. The customers compliment our product by going out of their way to purchase our milk, beef, pork, chicken, and eggs.

### Our Farm Family

Our farm is operated by a collaboration between the third and fourth generations of the farm. Everyone has their own primary responsibilities but many jobs are shared and many times roles overlap.

### What We Offer

Our milk and cream are now and always will be the backbone of our farm. No matter the advancements we make, the dairy will always be the center of the business. We raise corn and hay for our cows to eat and use their manure to fertilize our fields. In 2013 we began selling our own beef and in 2014 we added pork, eggs, now meat chickens during the warmer months.
